

HANLONMATH

MATHEMATICAL SYSTEMS, INC.

Math Content Based Professional Development

Concerned About Your School's Math Achievement & Proficiency Rates?

You can't raise math scores without talking about math. With help from Bill Hanlon, educators can stop making math hard to learn and improve student proficiency, retention, and achievement.

Customize Your Math Content Professional Development

We offer full day or 3-hour workshops on a range of topics from basic math facts to precalculus. Workshop participants receive:

- Content-based math strategies
- Specific linkages to introduce topics
- Specific examples for initial instruction
- Specific repeated scaffolding examples
- Copy of overheads used in workshop
- Practice exercises
- Sample practice test
- Summary of the workshop
